

Excursions and Tours Policy

Context:

Saint Ignatius' College Riverview is committed to the spiritual, academic, personal and physical growth of each student through a schooling culture which is aspirational. Saint Ignatius' College Riverview supports organised excursions and tours where participants shall be students currently enrolled at the College, parents of students currently enrolled at the College, supervising teachers/staff or other persons approved by the College. All excursions and tours should be in harmony with the school's philosophy and the management of excursions and tours are required to ensure that the good name of the College is upheld at all times.

Excursions and tours are structured learning experiences that complement and integrate quality teaching and learning programs which occur outside the normal class lesson and are associated with academic, pastoral, cultural or co-curricular pursuits. Excursions include field trips, events, in-school activities outings (including mentor groups) and sporting occasions. Tours include camps, overnight tours, student exchanges and overseas tours.

Principles:

Rationale, Purpose and Conduct

- There must be a direct link to the academic, cultural, faith-formation, co-curricular and/or pastoral care programs of the College; or there must be enunciated aims and rationale congruent with the ethos of the College.
- All participants will act as ambassadors of the College and promote the cause of Jesuit education.
- Attendance at Mass on Sundays is mandatory except where impractical due to travel or availability of services.
- Excursions and tours are limited to one excursion or tour per subject/co-curricular sport/activity per year.

Planning, Approval and Risk Management

- Thorough planning will be undertaken which will ensure the safety and welfare of the staff and students who participate.
- A risk assessment must be conducted and a Risk Management Plan developed for every excursion and tour.
- The Principal in consultation with the College Executive Team, will have the right to preclude students who do not demonstrate sufficient maturity/responsibility in the day to day behaviours at school. Other mitigating circumstances such as the status of payment of tuition fees may feature in a decision to prevent a student from attending an excursion.
- The College reserves the right to cancel any excursion or tour should it determine the level of risk relating to the excursion or tour is too high. The College bears no liability for loss incurred as a result of this decision.

- The Excursion/Tour Coordinator of non-sporting tours must consult with and provide regular updates to the Dean of Studies during the proposal, approval, planning stages and during the excursion/tour.
- The Excursion/Tour Coordinator of sporting tours must consult with and provide regular updates to the Head of Co-curricular during the proposal, approval, planning stages and during the excursion/tour.

Staffing / Supervision

- Staff on excursions and tours must carry a mobile phone or satellite phone (with international roaming activated for overseas travel) and a first aid kit. At a minimum, one staff member will have first aid training.
- Students are to remain in groups of at least three at all times.
- Staff (supervising adult)-student ratio is 1:15 for excursions and 1:10 for all tours and excursions deemed medium risk, with a minimum of 2 supervising adults, one of whom is a registered teacher at Saint Ignatius' College, Riverview.
- Staffing of excursions is to be approved by the Planning Committee, in consultation with the Excursion Coordinator via the Dean of Studies.
- Staffing of Tours is to be approved by the Deputy Principal Staff in consultation with the Tour Coordinator Staff via the Dean of Studies.
- Any adults who accompany excursions and tours are required to undergo a Working with Children Check and to conform to Child Protection Legislation.
- All supervising adults are to be conscious of their duty of care obligations to students and comply with College policies and procedures throughout the duration of the excursion or tour.
- All supervising adults must be familiar with the itinerary, student medical information and risk management plan.
- All supervising adults are to account for all cash advances and all expenditures made in relation to the Excursion or Tour, including obtaining and keeping receipts and reconciling expenses to funds provided.

Additional Principles for tours:

- Full observance of the requirements associated with DFAT will be followed in the event of overseas travel.
- Experience-Reflection- Action being the core of any Ignatian pedagogy, the end of each day on excursion should conclude (whenever possible) with a reflection on the day's experiences and the meaning which surfaces.
- All overseas Tours (educational and co-curricular) are to include an "Ignatian component" (e.g., visits to a Jesuit school, ministry or historical site).
- Parents are only to commit to Excursions or Tours when their School Fees are paid up to date and they have the capacity to pay both their school fees and the costs of the Excursion or Tour as the payment instalments fall due.
- Costs will be kept to a minimum to best assist all interested students access.
- All adults residing in the host families where students are billeted are to undergo a Working with children check. A letter of recommendation from the Principal of the host school stating that the families are known to the host school and are of good standing will only be requested should a Working With Children Check not be available.
- In the event of overseas travel, the Tour Co-ordinator must register all participants' details and the group's itinerary with the Australian Embassy in the destination country/ies and DFAT.

- In the event that the tour is cancelled, reimbursement of costs should be sought from the travel insurer. Saint Ignatius' College, Riverview will not be liable for any reimbursement of expenses (or any loss or damage) incurred by participants if the trip is cancelled and the insurance cover does not provide reimbursement in the circumstances.

A checklist of procedures to be undertaken is detailed in [Appendix A](#).

An indication of the expected cost of the Tour will be provided to parents and students at the first Information meeting.

Parents will then be formally asked to confirm their commitment and place for their son on the Tour by paying a deposit (approx. 10% of the expected cost). Once numbers are confirmed by the Tour Coordinator and there are sufficient numbers for the Tour to go ahead, this deposit becomes non-refundable. However, should the Tour not go ahead at this initial stage the deposit will be returned to parents. This deposit will be charged to the Parents school fee account on or around the 1st day of the month after Parents have formally agreed to commit to the Tour. The Tour Coordinator must provide a list of Students with ID numbers to the Finance Manager in order for the Deposit to be billed. This deposit must be paid in full, along with all other outstanding school fees at that date, by the 21st day of that month, otherwise their son's position on the Tour will not be accepted. This requirement must be made clear to all parents at this stage.

The College will not provide any financial assistance to parents to enable students to go on Tours.

Following the confirmation of the Tour going ahead by the Tour Coordinator and the receipt of the initial deposit committing their son to the Tour, parents will be advised by the Tour Coordinator the Total Cost of the Tour and a monthly Instalment payment schedule to pay the total costs of the Tour. These monthly instalments will be charged to the Parents School Fees Account on or around the first day of month and are required to be paid along with all other outstanding fees on the Account by the 21st day of that same month. If all School Fees including the instalment are not paid by the due date the sons position on the Tour will be withdrawn. Tour fees paid will only be refunded (excluding the initial deposit, which is non-refundable), by written request to the extent that the College is not out of pocket for costs associated with the sons Tour costs, after seeking refunds from the travel agent, airline and/or travel insurer. This requirement must be made clear to all parents before they make a commitment to the Tour.

Appendix B: Guidance in Completing the Risk Management Plan and Form

A Risk Management Plan must be developed for all excursions, tours, camps, exchanges, outings and events. The Plan is developed to make excursions, tours and events as safe as possible for all participants through identifying and assessing the risks and hazards that the excursion/tour/event may pose to the health, safety and wellbeing of those participating in the excursion and detailing strategies to eliminate or minimise those risks.

The Excursion/Tour/Event Coordinator is to develop the Risk Management Plan during the planning stage of the excursion/tour/event using the attached template. The Plan forms part of the approval process and must be submitted with the excursion/tour/event proposal to either the Planning Committee or the College Executive.

Steps in developing the risk management plan

There are 7 steps in developing the Risk Management Plan:

1. List the activities/components of the excursion/tour/event
2. Identify the Risks / Hazards
3. Assess the Risks
4. Set the Overall Risk Rating
5. Elimination / Mitigation of Risks / Hazards
6. Communicate the plan
7. Monitor and Review

Step 1 – List the activities of the Excursion/Tour/Event

Break the excursion/tour/event into its parts and list all the activities that will form part of the excursion/tour/event. For example:

- *Travel* to and from the venue and any transport to be used during the excursion/tour/event.
- Venue / Location of the excursion/tour/event.
- Activities be carried out by the participants during the excursion/tour/event.
- Meals to be consumed during the excursion/tour/event.
- Accommodation used by participants during the excursion/tour/event.

Step 2 – Identify the Hazards / Risks

Determine the hazards / risks associated with the activities identified. Consider what could go wrong, potentially cause harm, injury or illness to the participants or damage to property. For example:

- Travel – e.g. crossing roads, transport to the venue.
- Venue – e.g. location, layout, condition, security.
- Accommodation – e.g. sleeping arrangements, supervision, billeting.
- Activities – e.g. bush walking, swimming, skiing, climbing, manual handling, contact with animals, insects and plants, gardening, collecting plant/water samples.
- Equipment – e.g. sporting equipment, science equipment, instruments, manual handling, handling hazardous substances.

- Environment – e.g. weather conditions, nature of the terrain, plants, animals, insects, storms, floods, heat or bushfires.
- People – e.g. medical conditions, disabilities, and behavioural/ psychological considerations of participants, child protection, confidentiality, reputation, age, experience and qualifications of participants.

Step 3 – Assess the Risks

Using the following matrixes, conduct a Risk Analysis to determine the risk level of the each risk / hazard identified in step 2.

3a) Determine the likelihood of a risk /hazard occurring – Likelihood is an estimate of how probable it is for the risk / hazard to occur and cause harm / injury to participants or damage to property. Likelihood can be determined using the definitions set out in the following table:

Risk Rating	Description
A. Almost Certain	<ul style="list-style-type: none"> • Not unusual to happen. • Risk has more than an 80% chance of occurring.
B. Likely	<ul style="list-style-type: none"> • Known to occur or has happened in the past. • Risk has 60-80% chance of occurring.
C. Possible	<ul style="list-style-type: none"> • May occur. • Risk has a 30-60% chance of occurring.
D. Unlikely	<ul style="list-style-type: none"> • Not likely to occur. • Risk has 5-30% chance of occurring.
E. Rare	<ul style="list-style-type: none"> • May occur in exceptional circumstances (considered highly unusual). • Risk has less than 5% chance of occurring.

3b) Assess the Severity of the hazard / risk if it does occur – determine how seriously a participant could be harmed. Severity can be determined using the definitions set out in the following table:

Rating	Description
Catastrophic	Death or permanent serious disability. Unlikely to be able to return to work/college.
Major	Life-threatening injury requires lengthy hospitalisation/rehabilitation. More than a month off work/college.
Moderate	Significant injury requiring hospitalisation. A week to 1 month off work/college.
Minor	Injury requires a doctor. Less than 1 week off work/college.
Insignificant	Slight injury requires First Aid only. No lost time.

Step 4 – Set the Overall Risk Rating

Allocate an overall risk rating to each identified risk/hazard using the matrix below. The matrix indicates risk levels presented by a combination of various degrees of *likelihood* and *consequence* and categorises risk into four levels as follows:

E: extreme H: high M: moderate L: low

Likelihood	Consequences				
	1. Insignificant	2. Minor	3. Moderate	4. Major	5. Catastrophic
A. (Almost Certain)	M	M	H	E	E
B. (Likely)	L	M	H	E	E
C. (Possible)	L	M	M	H	E
D. (Unlikely)	L	L	M	M	H
E. (Rare)	L	L	L	M	H

Step 5 – Elimination of Risks or Control Measures

Identify what controls exist or will be implemented to eliminate or mitigate the risk / hazard. Eliminating the risk should be the first consideration, however, if not reasonably practicable, the risk should be mitigated to the fullest extent possible using control measures from the following hierarchy of controls:

- **Eliminate the hazard:** remove the hazard or stop using it, e.g. do not undertake a particular high risk activity such as abseiling in high wind or use high risk equipment.
- **Substitute the hazard:** replace the activity, material, or equipment with a less hazardous one, e.g. choose an easier Bushwalk.
- **Isolate the hazard:** isolate the hazard from the person at risk, isolate through distance e.g. check if a coastal walk has fencing.
- **Use engineering controls:** consider hiring coaches with seatbelts and ensure these are worn if available.
- **Use administrative controls:** establish procedures and safe practices e.g. supervision of students, establishing and communicating clear rules, instruction in safe methods, training of staff, volunteers and students in the excursion activities or in the use of equipment and qualifications of instructors.
- **Use of personal protective equipment:** use appropriately designed and properly fitted equipment such as safety glasses, hats and sunscreen, helmets or enclosed footwear.

After documenting the control measures, allocate responsibility for implementing and monitoring the control measure and document when this will occur (e.g. – Excursion Coordinator, during the excursion).

Step 6 – Communicate the Plan

Provide a copy of the Risk Management Plan to all supervisors. Provide relevant information to all participants and their families.

Saint Ignatius' College
RIVERVIEW

Step 7 – Monitor and Review

Continuously monitor the effectiveness of the controls. Review the plan if a significant change or incident occurs and amend the plan if required.
